

Maximizing Voice Technologies for Schools

With 18 years of VoIP experience, our team makes all the difference because at the core of all our services is our desire to make your school district's communication and emergency notification work better. That means giving you the ability to communicate amongst your staff in a way that makes sense for your unique needs. We strive for "World Class Service" before, during and after the completion of any project...that is the BCS difference.

- Private Learning Institutions
- Public and Private Universities
- Community Colleges
- Charter and Magnet Schools

Testimonials

"BCS looks for lifetime customers. Like, I will not go anywhere else. As long as they're in business, I will always go to them for what I need, because they were honest, from the beginning. And everything else that I've dealt with, from then till now has been amazing.

- **Jason D. - Maumee Schools**

"When Covid-19 hit last year, with the help of the BCS Team and our phone solution, we were able to spin up a 12 agent Virtual Call Center help desk to serve our parents, staff and students. Also, we launched remote learning support for all of our locations in one day!"

- **Ron H. - Breakthrough Schools**

"BCS has been a great partner in updating our district phone system. They have been very responsive and worked with us to find a solution that fit our needs."

- **Jay N. - Ravenna City Schools**

"I have worked with BCS for over 18 years and have referred multiple companies to them. All of my referrals came back so happy that they decided to do business with them. The BCS team is wonderful at what they do and I would highly recommend them to anyone."

- **Suzi D. - TAS**
